FARMERS ARE WARNED AS TO GRAIN BUYERS

Farmers and other shippers of grain are warned against selling, delivering or shipping their grain to persons or firms, who are not operating under license issued by the Board of Grain Commissioners, unless they receive full settlement in cash at the time of delivery.

All licenses issued by the Board expire on August 31st, and new licenses must be obtained on or before September 1st in each year.

Each license bears a serial number and shippers are advised not to deliver or consign their grain to any party who cannot give the number of the license issued to them for the current crop year, unless they receive full settlement in cash at the time of delivery. If persons purporting to be representatives of grain companies are bona fide, no difficulty should be experienced in obtaining this information. If the license number cannot be given or if any difficulty is experienced, full information should be forwarded immediately to the Board of Grain Commissioner at Fort William.

In the case of elevators, the license to operate should be posted up in the elevator.

PROMOTERS OFFER ENORMOUS BIDS

Milwaukee—When Tex Rickard offered $137,000 for the Willard-Dempsey championship battle he started all kinds of trouble for the boxing promoters. It is almost impossible these days to talk to the champions and their managers in figures of less than five, while some of them cannot get the $100,000 mark is reached. The days of wild finance are just beginning for the fighters, judging from the manner in which many of them are acting. And the public pays for all the wild demands of the fighters. No one can blame the boxers for getting all in sight, but promoters who raise purses sky high and make the public pay for the same have little consideration for the boxing game. It will prove a boomerang some of these days. One London promoter—Charles Cochran—offered $125,000 for a Dempsey match with the winner of the Beckett-Carpentier bout September 2, when along comes a rival promoter—Jack Callaghan—with a bid of $175,000. The French promoters have not been heard from as yet. Jimmy Wilde the little flyweight champion of England fought Pal Moore for a purse of $40,000 and now a purse of $50,000 is bid for a match between Wilde and Pete Herman, the bantamweight champion. Mike O'Dowd, the middleweight champion was offered $10,000 for his end for a match with Mike Gibbons—a no-decision affair of ten rounds—but he thought of Dempsey and others and immediately raised his demand for $15,000. Benny Leonard, the light weight champion and Johnny Kilbane, featherweight champ are pikers along side some of the others. Even Battling Levinsky, the light heavyweight champ, was offered $7,500 to go over to France and give Georges Carpentier a good tryout, but the Battler had the fever and may lose out; the Frenchman are not so quick at letting go the big purses. Jack Britton, the welter champ is also a piker, for he gets only a few thousand for fighting championship battles of 15 rounds but then Jack is getting old, and he probably wants to make hay while the sun shines. Some of the fighters of two or three decades ago must be doing a somersault in their graves when modern day purses are mentioned.

"Has your husband told you you must economize?"

"Yes," replied Mrs. Flimgilt, "but I'm not letting him bother me. He's one of those people who insist on taking up every fad that comes along."

The manager of the Elite theatre has just received a new booking sheet from the Regal Films Limited and the following features will be shown:

Monday and Tuesday, "His Royal Highness," starring C. Blackwell, a five reel feature.

Wednesday and Thursday" The Only Road" starring Viola Dana, a five reel feature.

Friday and Saturday "Cross Bearer" starring M. Love, a six reel feature.

EXPLOSION IN GOVERNMENT ELEVATOR AT PT. COLBORNE

St. Catherines, Ont.—Ten persons are dead and sixteen injured at least two seriously, as the result of an explosion which blew off the upper portion of the mammoth government elevator at Port Colborne at 1.15 o'clock Saturday afternoon scattering hundreds of tons of steel and concrete in every direction.

LADY NICOTINE WILL BE BANISHED IN FIVE YEARS

Washington—The total abolition of the use of all tobacco within five years is planned by the Woman's Christian Temperance Union, according to assertions made by the Association Opposed to National Prohibition. The W. C. T. U. will celebrate its semi centennial March 20, 1924 and according to the allegations by the A. O. N. P. by that date the temperance society proposes to have Congress submit an anti-tobacco constitutional amendment to the various states.

The outcome of an enquiry is thus described:

There is indeed a concerted plan of action based upon a mutual pledge of membership to have anti tobacco laws enacted in every State in the Union and, possibly, by Congress submitting a constitutional amendment before March 20, 1924, when the Women's Christian Temperance Union called, "mother" by the Anti-Saloon League, and other prohibition organisations, all of which are cooperative allies in the nation wide prohibition campaign.

"The Women's Christian Temperance Union began a drive last March for $1,000,000 and has announced that $300,000 of this sum will be expended on its work of Child Welfare, Health and Morality and Education and Information, and it is under these headings that the anti tobacco campaign will be financed instead of appealing direct for money to prohibit the use of tobacco.

IRMA NEWS

Mr. and Mrs. Geo. Tripp have been spending a few days in Edmonotn.

The Ladies' Aid are arranging to serve lunch Fair day August 15th.

Don't forget to get your entries in for the Irma fair.

Mr. L. Salmon has accepted a position at Spirit River.

Mr. Oscar McMurray started cutting wheat this week.

The ladies aid met at Mrs. A. Toll's Wednesday afternoon last.

Master Edgar Armstrong of Edmonton is spending a couple of weeks at Fenton's.

The G. T. P. are making a big showing with the steam shovel clearing away the hill west of the elevator sites.

Moore Bros. have finished taking stock and are busy setting up binders.

Mr. G. Jackson will have charge of the Northern Grain Co's elevator and is building a new house on first avenue west near H. W. Love's.

Mr. J. Henderson returned from the Peace River country Tuesday. Mr. Henderson reports good crops and hay in the district he was in.

W. Kitchen and company have taken over the International Harvester company's agency and will carry a full line of machinery, repairs and binder twine. Those requiring twine should secure it while the stock is on hand.

On Thursday July 31st Irma received a visit from Messrs Scott and Hamilton, provincial inspectors of dairy and cream stations. Strict orders were given to the local cream buyers to use the acidity test when grading cream, under the provisions of Section 47 of the Dairymen's Act. Then penalty for infringing this Act is annuling of the buyer's license. It will therefore be up to the farmers to take special care of their cream and bring it in as often as possible if they wish to get the advantage of the higher prices given for high grades of cream.

GOLD INGOTS HAVE BEEN RECOVERED FROM SHIP

Buncrana, Ireland.—Gold ingots of the value of 1,000,000 pounds sterling, have been recovered by salvagers from the wreck of the former White Star Dominion liner Laurentic which was sunk January 24th, 1917 off Fraser Light.

The dimpled Darling "But Freddy, mine, will you love me forever and ever, even if I grow old and ugly?"

The Gallant Sailor: "Sweetheart, you may grow older, but in my eye you will never, never grow uglier."

TOURNAMENT OF TRAP MEN NEXT WED.

Trap shooters from far and near, take notice: The Wainwright club will stage a local tournament next Wednesday afternoon at the grounds to top off the season. No elaborate program has been made, but just a wind up day to get the nimrods in shape for the coming shooting season and to help them develop the eagle eye necessary to pick 'em off when they go over the narrows.

Any shooter who would like to come in for the day will be welcome.

Six events have been roughly sketched out and are as follows:

Event No. 1, twenty bird events.

No. 2, ten pairs doubles.

No. 3, miss and out (three lives.)

No. 4, snipe shoot.

No. 5, shooting from left shoulder or in case of man left handed, right shoulder.

No. 6, handicap shoot.

No one will be allowed to win more than one first prize.

Targets trapped at three cents each. Trapshooting rules will govern.

As a side line, we understand that a deadly contest will also take place between J. W. Stuart and O. J. Elder on a side bet. You can't miss this.

A small entry fee will likely be charged for the events, and prizes will be given.

Trapshooters all invited to come and make this a final adjustment of your shooting eye for the opening of the duck season.

A shoot will be held Friday evening and afterwards a meeting will be held to consider details of the tournament.

AURORA BOREALIS INTERFERES WITH NEWS SERVICE

New York, Aug 11—Telegraph and telephone communication throughout the United State and Canada was seriously interrupted and in many cases completely stopped shortly after noon Tuesday by the aurora borealis, the "merry dancers" of Arctic explorers. The electrical phenomenon put out of commission thousands of miles of wire.

Roswell B. Tucker, Western Union wier chief said that the atmospheric disturbance was the heaviest and most extended in the records of the company.

The disturbance was felt Edmonton Tuesday night on the Canadian Associated Press wire and the direct wire from Winnipeg to Edmonton was interrupted continually for periods of varying length.

WET WEATHER INTERFERES WITH S. SCHOHL PICNIC

It was unfortunate that Wednesday afternoon turned out so wet, as to make it impossible and unwise to carry out the program of the Church of England picnic.

All the arrangements were perfect and on less than sixteen motor cars were chartered and freely given by their owners.

The suggestion of Mr. Pawling was most acceptable, viz: to make use of the rink.

Here the children and their parents assembled and a most pleasant afternoon was spent.

The young folk thoroughly enjoyed themselves.

A more than excellent supper was provided which reflects much credit upon all concerned.

The very best thanks are due to Mr. Pawling and Mr. Munn as well as the following ladies, who worked so hard in making the children happy, creating an atmosphere of good will and fellowship which was a splendid set off to the dreary weather outside: Mrs. A. Mills, Mrs. Lassell, Mr. MacNeill, Mrs. Lush, Mrs. Cork, Mrs. Tansey, Mrs. Ward, Miss Gibson, Miss Grace Ward, Miss Ranicar, Miss Christina Ward, and Miss Wakefield.

$10.00 REWARD—Will be paid for information leading to the recovery of one bay mare, white strip in face, about 1200 lbs, branded LL on left shoulder and has bad scar on right side of rump and has filly foal with white strip in face. Also one grey gelding about 1100 lbs branded on right shoulder

Last seen May 17th. John Veitch, Wainwright. 40—4tfn

ENOUGH SUGAR TO CARRY OVER THE SEASON

C. W. MacKelvie secretary of the Western Canada Fruit Jobbers association has received a wire from the chief of the Fruit Division of the department of agriculture, Ottawa, in reply to a wire sent during the recent meeting of the fruit men at Saskatoon asking the government to take some definite action to relieve the sugar shortage in the west. The wire which explains itself is as follows:

"As a result of your wire 4th conference of Canada Food Board and trade commission held here re sugar shortage which explains delay in my reply. Answering your inquiry as to the exact sugar situation I can state that there i sufficient sugar in sight to carry over the season. Licenses for export are not being granted. Refiners will devote maximum efforts towards relieving western situation."

The campers at the lake are not getting very pleasant weather these days, as rains and cold evenings are the rule rather than the exception.

A MAIN HIGHWAY TO EDMONTON STARTED

Chauvin Chronicle: One of the most important undertakings of the present season by the provincial government is that of building trunk roads. It has fallen to the lot of this district to have an early start made. Under the direction of Charles Kirby, some 85 miles are to be built this fall. Starting from the Saskatchewan border line immediately east of Chauvin and thence westward for eighty five miles with Edmonton as it's final objective. The outfits drew out of town Monday morning and operations are now under way.

This highway will be built of dirt, but carefully drained and crowned. It is planned to serve existing towns and to follow the best road allowances as far as it is consistently possible.

This work is giving employment to quite a number of men and will doubtless increase the circulation of money in our district, besides providing the greatly needed inter urban communication which is notoriously bad, whilst relieving the local taxpayer to no little extent.

LARGE SUM OF MONEY STOLEN FROM P.O.

Edmonton—Fifty thousand dollars in paper currency was stolen from the post office here between Saturday afternoon and 8 o'clock Tuesday morning. The money belonged to the Merchants' Bank and is believed to have been insured.

The large amount taken was done up in three paper parcels and had been consigned by registered parcel post from the head office of the Merchants Bank in this city. It came into the local post office Saturday and when the vault was opened Tuesday morning the employees discovered that the money was missing.

The city police were immediately notified an Chief Hill an his staff of detectives worked all day and all night on the case.

The packages were in the vault and the key to the vault was left lying in an open drawer where eighteen different employees had access to it. Nearby was an open window through which the packages might have been passed or thrown out into the lane to be picked up at the leisure of the robber.

A DANCE ON FRIDAY

A dance will be given in the Elits Theatre Friday evening of this week, starting after the show. The chief attraction of the evening will be a genuine jazz orchestra. Members of the orchestra are at present visiting Mr. Cook at Chauvin, and they will come up here with him to play. This is the last opportunity to hear Mr. Cook as next week he will leave for Bashaw. Don't forget the date and don't forget to come.

DEPT. AGRICULTURE WILL SUPPLY RYE SEED

The farmers of Southern Alberta whose crops have been reduced by drought will be glad to learn that the Department of Agriculture is making provision for fall rye seed in the same way as advances of seed grain were made last spring. The department is looking after the unorganized areas while the municipal department is authorising action on the part of municipalities in the same way as was done last spring. A maximum of twenty-five bushels of seed can be secured. Those who can afford to purchase this seed can do business directly with the Dominion Seed Branch at Calgary without the assistance of the department of agriculture or municipalities. Others who require credit can secure their seed through the Seed Branch of Edmonton. The department of agriculture takes a note which runs until November 1st 1920. The note is protected by a lien on the land. The price of the seed is $2.20 per bushel. The furnishing of this seed is subject to the holding out of the supply at the Dominion Seed Branch at Calgary.

The Minister of Agriculture has been urging the sowing of fall rye especially in a dry season. The supply of both native grasses and roughage from grain crops is reduced in dry seasons and quick crops are needed for both hay and pasture. If rye is sown in August it furnishes feed during the autumn and is a crop that is ready for grazing again early in the spring as soon as the snow goes away. It can be grazed up until nearly the middle of June if the season is not too dry and can then be left to ripen for grain or can be immediately cut for hay. The crop is a highly beneficial and profitable crop in any kind of season and throughout the province. Besides its value for forage it is useful as a green crop to plow down and is also useful to hold the land against blowing. Much of the land in Alberta has been subject to frequent cultivation and is now so fine that when it becomes dry it blows badly. The rye prevents this in both the fall and spring. It's being established at the opening of spring also saves it from being affected by drought in July to the same extent as spring crops are. It is one of the best and most profitable crops that can be grown and farmers should take advantage of this crop especially on areas or in seasons of light precipitation. The recent general rains have made conditions good for quick germination of this crop. It can be planted well into September but is better in by the middle of July for fall pasture.

HOUSE OF COMMONS HAS AN ALL NIGHT SESSION

London, Aug. 14—The house of commons continued its sitting all night, the government having stated its wish that the profiteering bill be finished at this session. In addition to this amendment empowering the board of trade to fix wholesale and retail prices others adopted provide that women may sit on all local committees and that all regulations made by committees shall be submitted to parliament which is empowered to annul them, if found objectionable.

ANDREW CARNEGIE DIES SUDDENLY

Lennox, Mass., Aug. 13—In his great mansion overlooking a lake in the Berkshires where he sought relaxation when bodily infirmity overtook him and his mind was absolutely free entrance of the United States into the world war, Andrew Carnegie, iron master and philanthropist, died Monday.

Although he had been in feeble health for more than two years, his final illness was brief—a matter of days. A severe cold developed quickly into bronchial pneumonia, the aged patient lapsed into unconsciousness, and the end came as though it were but the beginning of a deeper sleep.

No ostentation will mark the funeral of the man who, when he began 18 years ago to give away his millions, was reputed to have the second largest private fortune in America. A simple service attended only by members of his family and his household will be held at the home, Shadowbrook, Wednesday. It is expected that the body will be taken to Pittsburg the city where he laid the foundation, for his wealth, for burial.

MEETING OF WOMEN'S INSTITUTE

A special meeting of the Women's Institute is called for Thursday afternoon August 21st to be held in the council chamber at 3 p.m. sharp to hear Miss Todd of Edmonton speak on the subject of literary entertainment with suggestions for arranging for literary programs, etc. All are welcome and please bear in mind the date of the meeting.

ANNUAL FAIRS IRMA AND EDGERTON THIS WEEK

Irma and Edgerton will hold their annual fairs this week, Irma Friday and Edgerton on Saturday

Mr. Lawrence and Mr. Davidson, the president and secretary of the Edgerton Agricultural society have been working very hard on making the fair a success this year, in spite of the usual bumper crops that the district is famed for, are not forthcoming this year. A large list of special prizes have been offered, and competition should be good in all lines of livestock, and handiwork classes. Considerable garden truck has been raised also, and exhibits should be good in that line.

The fair opens Saturday of this week and everybody should attend to back up the officers of the society.

PRINCE OF WALES WILL PASS HERE

Montreal, Aug. 8—The west itinerary of H. R. H. Prince of Wales is as follows:

Port Arthur and Fort William will be reached Sept. 8 and Winnipeg Sept. 9. Leaving Winnipeg the following day the royal party will proceed to Saskatoon Sept. 11 and Edmonton on September 12, thence southward to Calgary, arriving September 14. Four days will be spent in Calgary and its vicinity including a visit to the celebrated ranch of George Lane. Leaving Calgary on September 17 stops will be made at Banff, Lake Louise and Field, in the Canadian Rockies the program at Field including a visit to the beautiful Yoho Valley, Revelstoke will be reached on September 20 and Vancouver on Septe. 22.

A Canadian Pacific steamer will carry His Royal Highness across to Victoria on September 23. Visits will be made to a number of points on Vaucouver Island returning to Vancouver 29.

From Vancouver the prince will motor to New Westminster and thence take the Kettle Valley route through southern British Columbia, reaching Penticton on September 29, and making a steamer trip on the Okanagan lake.

Nelson will be reached Oct 1. and Lake Kootenry crossed The route next is through the Crow's Nest Pass into and across the prairies, topping at McLeod Oct. 2, Lethbridge Oct. 2, Medicine Hat 3, Moose Jaw October 4th and Regina October 4

A little beyond Regina three days will be spent in duck shooting. Resuming the journey at Qu'appelle, stops will be made at Brandon, October 10, Potrage October 10, Winnipeg 10, and Fort William 11.

The total length of his seventy day journey form Quebec to the Pacific coast and back is over 8,000 miles. His Royal Highness will travel in Lord Shaughenssy's private car, which His Lordship has placed at the disposal of the guest of the nation.

CHURCH SERVICES

St. Thomas Church of England

Sunday August 17—Ninth after trinity. 10.30 matins; 11.30 Sunday school; 7.30 evensong. Note holy communion after evensong. Preacher at both services, the Vicar.

St. Patricks, Heath

Sunday, Aug 17.—Ninth after Trinity. 2.30 evensong, Preacher the Vicar

* * *

Methodits Notices

Services as usual at Grace Church 11 a.m. and 7.30 p.m. Sunday school at 12.15. Service at Gilt Edge school at 3 pm. This service will be specially used for the dedication of children in baptism. Will parents who have been spoken to in this matter kindly accept this as a reminder. Any others will be gladly received.

Grace Church Sunday School picnic will be held on Wednesday August 27th the place will be announced later.

WHEAT CUTTING UNDER WAY IN DISTRICT

Wheat cutting will soon be general in the district, and many of the fields are already cut. The short straw has presented many problems as to the best method of gathering in the crop without losing such a large percentage.

Many farmers are using the mower as a harvester and on the bar they have fastened a carrier arrangement, which holds the grain for bunching. Two different carriers are being made here by the Wainwright Sheet Metal Works, one with a solid iron bed with sides up about eight inches. This carrier absolutely prevents the the loss of any grain and is especially adapted on new ground or rough fields.

The other carrier is made of sheet iron strips about one inch and a half wide and about three feet long. A space of about an inch is left between each strip. The assembled strips are all riveted to an iron cross piece which is fastened to the mower. At the back to retain the grain a wall is constructed of sheet iron, which works on a hinge. When the carrier is full of grain the operator simply lifts the retaining wall or back and the stubble coming up through the spaces between the strips pulls the grain off the carrier. This carrier is reported to be a success when used on smooth fields.

Francis Ebbern has, it is reported, a field of wheat that will bring him in around two thousand bushels of grain. Other reports are that some exceptionally good yields will be made in the Greenshields district and Doley district, taking into consideration the adverse season.

The frequent rains, last Saturday, Sunday and Wednesday of this week, have given us plenty of moisture to ripen and fill out the oat crop, and if the frost stays off long enough hundreds of acres of green feed will ripen. Yields of oats have been reported to us ranging from 15 bushels to 55 bushels per acre, and there is no doubt but what the district will have a fair crop this year. Estimating the yield is very difficult to do, as many of the fields when viewed from the road look splendid, but when walking through the grain, one is apt to find it very light.

If the rain keeps coming throughout the fall at the same rate as during the last few weeks, the ground will be in fine shape for fall plowing and for starting fall rye and wheat. Let us hope that the good old days are coming over the horizon to see us once more.

PRICE OF SHOES MAY NOT INCREASE AS ANTICIPATED

Ottawa, Aug.—The price of hides for the manufacture of boots and shoes is falling in Canada since the government placed an embargo on exports of hides skins and leather, at the advice of the cost of living commissioner. The embargo was announced on August 4th. By August 6 country hides had fallen five cents a pound and advices received state the price on hides dropped ten cents and on calf skins twenty cents on the Montreal market yesterday. "This decline in the price of raw material following the government's action, should, if it continues," says the cost of living commissioner, "obviate the necessity of an advance on boots and shoes, and if continued far enough, should cause an actual decline in these prices."

GET YOUR NAME ON VOTERS LIST AN ONCE

Attention is drawn to a notice that appears on another page regarding the placing of your name on the municipal tax roll. A new system has been inaugurated and now a wife, husband, son or daughter, of the person assessed may register their names on the voters' list and are entitled to vote on all questions except money bylaws. This registration must be made at the office of the secretary treasurer of the town before August 31st. Get your name on the list now, as after that date you cannot get the privilege to vote unless you are the one assessed.

Advertisements without special directions will be inserted till forbid and charged for.

WAINWRIGHT, ALBERTA, WEDNESDAY, AUGUST 13th, 1919

WAGES AND PRODUCTION

New York Times—Labor is entitled to thanks for its perception and admission that its high wages are disappointing so far as the increased money falls to give accustomed satisfaction of wants. The unions whose spokesmen declare that the race between wages and prices should be stopped at the present level are among the most intelligent, and therefore the strongest, in the country. They will increase the country's indebtedness to them if they will go a step further and consider how the coveted satisfaction can be obtained without reduction of wages, or with reductions of wages smaller than the increased satisfaction of wants, or even of luxuries and pleasures of life. All would like to see this and most would assist in the process if there were belief in such a possibility. What is the missing link in the argument, and what is the answer?

When more is produced there is more to divide, and wages will buy more without raising prices. It is true that there has been a great increase of production during the war, and that prices have risen. That is the exception which goes to prove the rule that increased production lowers price. The reason for the exception is that the increase of production during war is limited to goods and services for which there is a strictly limited demand, and for the purpose of destruction rather than of satisfaction of general wants. During war the production of universally wanted goods decreased in something like a due proportion to the increase of such articles as munitions. Even stocks of general goods are depleted by the diversion of productive effort in other directions. The resultant decrease of supply in proportion to demand is the chief cause of the high cost of living. When productive effort is restored to peaceful proportion the result will be increase of supply, and the cost of living will fall, if the advice of the railway men is taken and the increase of nominal wages is stopped.

It is easy to supply examples under the theory. The British Board of Trade says that for the first twenty weeks of this year the production of coal was 240,000,000 tons compared with 287,000,000 in the last pre war year. In both years the number of miners was the same. How is it that in normal times with lower demand for coal and with lower wages, there was a greater production than now, when the demand is urgent and wages are the highest ever known? There are several explanations, which, it is agreeable to say, apply to our workers in less degree and to some of our workers not at all. One is that the British colliers are strangling their industry according to their custom by declining to produce according to their easy capacity. They are even threatening their country by refusing to produce at all in order to force compliance with their political demands. Although better paid than ever before, they not only refuse to produce coal on a scale of a quarter billion dollars' worth a year, but by the lack of their product, they check the distribution of goods over railways or seas, while themselves obtaining their supplies from the mines direct, by trade usage. The consequence is such an accumulation of demand over supply that the price has exceeded the government limit and the government has had to announce an increase of price to consumers "because of increased wages, shorter hours for the miner and decreased production per workman."

The discovery of the unionists that they also are consumers, and that what they compel to be paid into one hand they are compelled to pay out with the other, may serve to direct their attention to the fact that he consumers are the masters of unions and lawmakers alike when their needs compel them to take charge of the situation. There is now going on an uprising of consumers the dominant partner in all businesses even that of government. Capital has experienced, is experiencing the punishment suitable for incurring a reputation for predatory conduct. The British strikers are predatory as surely as any trust. Let our workers avoid even suspicion of exacting more pay than their services are worth, or of conspiracy to limit production and protect slackers. For example the President has asked congress to investigate wage increases asked by the railway shopmen. The Director General informed him that their case was under consideration, but they struck. That is not consistent with the opinion of the Big Four Brotherhoods that reduction of living cost is more desirable than increase of wages, and it is obnoxious to suspicion that the shopmen are checking production by opposing methods or efficiency. They demanded time pay instead of piecework wages, and when they were accommodated there was a great loss of production. That is one of the reasons why it is necessary to still further to increase rates, and thus to put the cot or chair slacking on the forgotten third party of their wage contract, the patrons of the railways. The whole is greater than the part, and no class of producers can afford to oppose their interests to the universal interest.

CANADA AND THE LEAGUE OF NATIONS COUNCIL

Morning Telegraph, New York: The Canadian Minister of Justice at Ottawa is quoted as saying that the reservations suggested by former President Taft would exclude Canada from distinctive representation on the Council of the League of Nations for all time. He is right. So is former President Taft. Assuming that the League of Nations is approved and the plan becomes an accomplished fact, why should Canada, so long as she is content to be an annex of the British Crown, with a governor general appointed by the King, have a place or vote in the Council? That she is an autonomous self governing country does not justify her in such expectation. The State of New York is autonomous. It is self governing. Like Canada, it has certain reserved rights which the national government at Washington cannot take away or abridge; and, like Canada it is subject in many things to the central authority. New York does not expect a voice or a vote in the Council.

If Canada's argument, justifying her claims to such representation is sound then New York and forty seven other States could set up similar claims.

Canada boasts of being a free country, and she is. It is sometimes said that the ties binding her to the central government are "sentimental rather than political, and perhaps this is true. But it is her own affair. If she sees fit to sever those ties and set up as an independent sovereignty she would doubtless be admitted to any League of Nations on equal terms with other powers. Her distiny is in her own hands.

BREEZY BUBBLES

Starry realms—"movie" circles.

One of the best things going—an unwelcome guest.

Is there anything to prohibit liquid music from the barrel organ?

A woman's sphere may be her home, but she's not to be blamed for wanting to get out around.

Talk about extravagance, just think how the old timemoney kings fooled away their money on court jesters.

"Asks $1,500,000 to Fight Grip"—a headline, meaning the influenza. It would take a good deal more than that to remove the grip of profiteers.

It seems another blow at the food supply of the world when prohibition steps in and blights the wild oats crop of coming generations.

It would be just like a Yankee if he should become mayor of Jerusalem to build a bridge over the Jordan and take all the romance out of visits to Palestine.

The Kosmanite religious cult, founded by D. R. Newberry, late of Rochester, now of London, insists that mankind should go entirely nude. Mr. Newberry is wasting his time in London. His place is at some popular U. S. bathing beach. Also in this connection has the apostles of the cult established a flourishing parish in Alaska?

Incontrovertible

The late Sir Herbert Tree coming home late from his club one morning was stopped by a slightly elevated gentleman. "Sir!" he said, "what's the time?" "Two o'clock," said the actor. "Two o'clock," exclaimed the elevated one. "It can't be! Why I've just heard it strike two twice."

TRAP SHOOTING RECORDS

Ollie Williams, state champion of Tennessee, has a break of 449x500 to his credit for last year.

Frank Hughes State champion of South Dakota who makes his home in Mobridge, last year broke 772x800 for a registered average of .9650.

MACKENZIE KING IS ELECTED LEADER OF THE LIBERAL PARTY

BALLOTTING WAS IN PROGRESS FOUR HOURS BEFORE FINAL DECISION

Ottawa, Aug. 7—Hon. W. L. Mackenzie King, minister of labor in the Laurier administration, is the new leader of the Liberal party. He was so acclaimed at the close of the national convention when his most formidable rival, Hon. W. S. Fielding moved that his election be made unanimous. Mr. King who subsequently spoke was given an ovation, as was also Mr. Fielding when he congratulated his successful opponent on his victory.

Mr. King was elected on what is officially the fourth ballot, but as a matter of fact, only three votes were taken. This because some of the delegates cast their votes in the third ballot before Hon. George P. Graham had announced his decision to resign and the ballot was thrown out. There was a similar mixup when a number of delegates voted before D. D. McKenzie retired. As a result it was decided to take the fourth ballot on number five ballot papers. With the contestants reduced to two in number, the interest in the final vote was intense. The vote as announced by Hon. George H. Murray chairman of the convention was 476 for Mr. King, and 428 for Mr. Fielding, a majority for the former of 38.

King Led all the Way

Mr. King led in the race from the first ballot when, with the four candidates in the field, the vote stood King 344; Fielding 231; Graham 183; McKenzie 158. The Fielding adherents were quite confident that the former finance minister would overhaul his rival in the second ballot, but Mr. King instead of falling behind slightly increased his lead the vote standing—King 411; Fielding 344; Graham 124; McKenzie 90. Although the vote given to the two leaders had considerably increased on the second ballot, both fell short of obtaining a majority of the vote cast, thereby necessitating a continuation of the voting. Mr. Graham and Mr. McKenzie did not retire immediately on the announcement of the result of the second ballot but did so just as the scrutineers were about to resume the collection of ballots. This resulted in the slight confusion and delay already described.

It was almost eight o'clock when the final vote was announced.

Balloting had been in progress over four hours. When the returns announcing Mr. King's success were read by the chairman, Mr. Fielding amidst great applause moved that the report of the returning officer be made unanimous.

The enthusiasm was renewed as Mr. King rose to express his thanks to the convention. The delegates rose in a body, cheering wildly for several minutes. Ushered forward to the front of the platform Mr. King said he was sure all would appreciate his feelings when he said that words could not express [illegible] felt for the greatest [illegible] that could be given to any man.

THE HINDOO WAY

It is a rather odd thing that the hotter the climate the hotter is the national cooking. In places like Natal the taste for peppered dishes becomes almost a mania. It is a frequent cause for serious digestive troubles. For some reason or other Americans transplanted into tropical countries are prone to acquire the habit of eating very highly spiced food. But it takes a very good cook indeed to keep just the right balance between just enough spice and not too much.

Most of us who have not been in India have an idea that Indian sauces are all highly spiced, like the bottled imported chutney and currey sauces. But this is a mistaken notion. Of course much highly seasoned food is eaten in India—as it is eaten in all warm countries. But the Indian cook makes use of many sauces that are not highly seasoned in the course of his culinary practices.

Melted butter is the foundation of many of the sauces of India; and remember, in copying any of these recipes, that melted butter does not mean butter that has been heated much beyond the melting point.

Indian White Sauce—The Indian white sauce is made as follows: Take half a cup of milk and two ounces of melted butter and bring them to the boiling point. Put a tablespoon of flour in a cup and add cold milk until it reaches the consistency of cream.

Mix out all the lumps and then add to the hot milk and butter. Allow it to boil over water for five minutes. This sauce, like out own white sauce forms the foundation of many sauces. With a little anchovy paste mixed in it it is a delicious sauce for fish. With the addition of capers it is excellent served with lamb or mutton. To make parsley sauce to serve with boiled meats or potatoes the Indian cook makes a thin sauce and then adds a handful of parsley that has been parboiled and chopped fine. The Indian cook makes a delicious egg sauce to serve with salads or vegetables by simply boiling two eggs twenty minutes, cooling them, chopping them very fine and adding them to a cupful of melted butter.

Tomato sauce—There is no cook in the world who makes better tomato sauce than the Hindoo. This is how he does it. He takes a dozen tomatoes, opens them and squeezes them gently to force out the water and seedy pulp. Then he puts them in a sauce pan with a capsicum—a dash of red pepper will do—a little mace, twenty-four cloves, two cloves of garlic, a sprig of taragon, a sprig of chevil and three bay leaves. To this he adds four tablespoons of rich beef gravy—dish gravy from a roast of beef or beef steak is the best. He allows this all to simmer slowly for an hour. Then he puts it through a sieve and adds a tablespoon of melted butter, mixes it thoroughly and the sauce is ready for the table. To any one who did not like highly spiced food the amount of spice used should be reduced.

Indian apple sauce is served never as a dessert, but always as an addition to cooked meat of vegetables. This is how it is made: Take four large firm apples, peel and core them and slice them into two ounces of melted butter and a teaspoonful of water in a sauce pan. Simmer until the apples are quite soft, mash to a pulp and season with salt and pepper—never with sugar. This sauce is delicious.

KAISER'S KAR NOW A JITNEY

It's sad but it's true. The royal chariot of the all highest has been sold to a man in Berlin who is going to use it for a jitney bus. And if Wilhelm ever goes home again he'll find himself in strange company, when he takes his former benzine cart for a ride down Unter den Linden. A common, vulgar auction did it. The car was dilapidated because of hard driving during the war and now where once a trumpter from the front seat sounded fanfares to announce that the all highest was approaching, no doubt will be heard the megaphone mouthed crier with "On the right, ladies and gentlemen you see——" Anyway it looks like Wilhelm "gave up" his kingdom to get a ride in a jitney.

2,000,000 POUNDS WASTED

Chicago—Two million pounds of foodstuffs, shipped to Chicago in 1918 were spoiled, condemned and destroyed because of delay on railroas or improper handling by the producer, shipper commission men, or retailer, according to Health Commissioner Robertson.

It included 312,069 pounds of meat, 63,233 pounds of poultry, 146,600 pounds of fish, 85,000 pounds of fruit, 240,553 pounds of vegetables, 102,272 pounds of canned figs, 369,912 pounds of canned fruit, 527,943 pounds of canned vegetables and 19,572 pounds of eggs.

Robert Dollar

Before he was 14 was a cook's boy in a Canadian lumber camp. At 21 he was a lumber foreman and saved money on wages of $30 a month. From his first investment in a boat in which to transport lumber cheaply his shipping ventures grew to a fleet. Today—a lumberman, shipowner and merchant because early he began to save his money.

Once get the saving habit and unless you are an exception to the rule you will find that saving money is as easy as spending money.

We welcome the opportunity of serving you.

Government of The Province of Alberta

TENDERS FOR THE CONSTRUCTION OF TELEPHONE EXCHANGE BUILDINGS AT CASTOR, WAINWRIGHT, LOUGHEED AND VIKING—ALBERTA.

SEALED TENDERS addressed to the undersigned and endorsed "Tenders for the Construction of Telephone Exchange Buildings at Castor, Wainwright, Lougheed and Viking Alberta" will be received up to 12 o'clock noon August 16th, 1919.

TENDERS submitted may cover one or all buildings, but each building shall be covered by a separte tender and shall be considered as individual contracts.

Plans and specifications may be had on application to Engineer and Plant Superintendent, Department of Telephones, Parliament Buildings, Edmonton.

Accepted cheque for Five (5.00) Dollars shall accompany each request for Plans and Specifications, which shall be returned when contract is awarded.

Each tender must be accompanied by an accepted cheque payable at par Edmonton, to the Deputy Minister of Railways, and Telephones for Five (5) per cent of the Tender.

Should the contract be awarded, the successful bidder shall be required to execute a guarantee bond on an approved Surety Company equal to twenty (20) per cent of the Tender as a guarantee for the faithful fulfilment of his contract.

The cheques of the unsuccessful bidders will be returned within Six (6) days after the contract is awarded.

The right is reserved to reject any or all bids or to waive any defects.

N. L. HARVEY,
Deputy Minister of Railways and Telephones.
Dated at Edmonton this 30th day of July, 1919.

In the matter of the Court of Confirmation of the Tax Enforcement Return of the Municipal District of Vale No. 392.

TAKE NOTICE that the presiding Judge of the District Court of the District of Edmonton, will, at a sitting of the court at Wainwright, Alberta, on Tuesday, the 6th day of October, 1919, confirm the Tax Enforcement Return of the Municipal District of Vale, No. 392.

N. G. VAN DYKE,
Secretary Treasurer, Daley, Alta.
Dated this 29th day of July, 1919.

FRENCH GENERAL IS TO COMMAND THE ARMY

Paris—Premier Clemenceau conferred with Marshal Foch and the members of the interallied supreme council. Afterwards it was decided, having regard for the importance of the French troops on the Rhine to give a French general command of the allied troops of occupation.

GRIP, INFLUENZA

Hamlin's Wizard Oil a Reliable, Antiseptic Preventive

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and snuff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "Flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30c at druggists. Guaranteed.

PUBLIC NOTICE

Public Notice is hereby given that there has been introduced in the council of the Municipal District of Gilt Edge, No. 422, a Bylaw of which the following is a short synopsis:

A Bylaw prohibiting at large within the Municipality of all stock belonging to persons who are not resident land owners in the District.

The provisions of said Bylaw to provide for limiting the number of animals which a resident land owner may run at large for each section owned by him, and that a copy of the same may be open for inspection at the following places:

Office of Secretary, Wainwright.
Post Office—Gilt Edge, Alta.
Post Office—Hope Valley, Alta.
Post Office—Heath, Alta.
Post Office—Edgerton, Alberta.
Post Office—Greenshields, Alta.
Post Office, Wainwright, Alta.
At the Residences of
Geo. Otterholm, S. W. 28—44—4—4
Harry Moss, N. E. 34—44—4—4
J. H. Dawson, N. W. 16—45—6—4
Chas. McClennon, N. E 14—46—5—4

James Church, S. W. 4—45—6—4
Francis Traynor, N. E. 16—46—5—4
F. H. Bailey, S. E. 16—46—5—4

and further that unless within thirty days from the publication of this notice at least ten resident electors of the Municipality petition the council to submit such bylaw to the vote of the resident electors of the municipality the council will proceed to pass the same.

Dated this 23rd day off July, 1919.

D. W. HANSEN,
Secretary-Treasurer of the Municipal District of Gilt Edge, No. 422.

BY-LAW NO. 11

A Bylaw of the Municipal District of Gilt Edge, No. 422 for the Restraining of Animals at Large

1. In this bylaw unless the context otherwise requires, the term "animal" means and includes horses, cattle, sheep, swine or poultry.

The term "horses" shall mean and include any mare, gelding filly, colt, jack, or jenet.

The term "cattle" means any cow, ox, heifer, steer or calf.

2. No horses, cattle, sheep, or hogs the property of any person non resident within the said Municipal District of Gilt Edge No. 422, shall at any time be at large in any part of the said Municipal district.

3. Any animal at large shall be deemed to be any animal not under direct control of the owner or some one acting under his authority, or secured in any building or within a lawful fence.

4. Any animal at large contrary to the provisions of this Bylaw may be impounded in the manner herein provided for.

5. Pounds shall be established as follows:

Division 1—Andrew Trautmann, N. W. 18—44—4—4.
Division 2—David Sutherland, N. E. 20—44—5—4.
Division 3—George Wilson, N. W. 15—44—6—4.
Division 4—Russell Fox, N. E. 34—45—6—4.
Division 5—J. R. Allinson, S. E. 18—46—5—4.
Division 6—Giles James, S. W. 22—46—4—4.

6.—Any fence conforming with the requirements of the Fence Ordinance shall be deemed to be a lawful fence.

7. Notwithstanding anything herein contained, any resident of the said Municipal District may allow Seventy-five (75) head of horses or cattle to run at large for every 160 acres of land owned by him within such district.

a. Provided, however, that no permissions granted under this Bylaw to any resident, will permit him to have any animal at large contrary to the provisions of the Entire Animals Ordinance.

b. "Owner of land" means and includes any person who is resident on and has possession of land purchased under an agreement of sale.

8. The provisions of Sections 208 to 215 inclusive of the Municipal Districts Act, shall be deemed to be incorporated in and form a part of this Bylaw, substituting the word "Bylaw" for the word "Act" where the meaning requires it.

9. The Provisions of the Stray Animals Ordinance, the Herd Ordinance and the Pound Ordinance shall cease to be operative within the said Municipal District, on the coming into force of this Bylaw.

10. Any person who suffers or permits any animal which he is entitled to possession of, to be at large, except as herein provided, within the said Municipal District, shall be guilty of a breach of this Bylaw and shall, under summary conviction under Part XV. of the Criminal Code, forfeit and pay as a penalty an amount not exceeding one Hundred Dollars and costs, and in default of payment forthwith after conviction, shall be liable to punishment by imprisonment with or without hard labor for a period not exceeding thirty days, unless such fine and costs, including the costs of committal, are sooner paid.

Done and Passed in Council this 17th day of July, A. D., 1919.

F. H. Bailey, Reeve.
D. W. Hansen, Secy-Treasurer.

500 AUTOS STOLEN HERE EVERY MONTH

According to the approximately 500 automobiles are stolen every month in New York city alone, Frank Oliver Secretary of the Motorcycle Dealers, in the letter to the casualty and public utilities insurance companies as well as to the heads of police departments, and secretary of state and to the motor vehicle commissioners of adjoining states inviting them to a conference to discuss measures to decrease their losses.

HINTS TO MOTORISTS

When tightening the brakes do not set them too tight. It is easy to set them up too far, and then the operator wonders where all his power has gone. Jack up each wheel and see if the wheel is still free after adjustment.

Watch out for spark knock on a hill. Retard your spark as soon as it is heard. It flattens the bearings and kills the power.

On the other hand the spark should be kept advanced as far as possible at all times, just short of the point where it makes a knock. The difference in your gasoline bill will give you a convincing argument in favor of the spark well advanced.

Do not neglect to oil the universal joints because they are difficult to reach. Many a car has developed surprising power and hill-climbing ability after a skilled man has gone over it with a grease gun and an oil gun.

Do not fail to put a wrench on every important nut and bolt on the car at least once a month. Nuts held by cotter pins may be passed by inspection, but those held by lock washers will need to be tried with a wrench. A loose part may easily wreck a car and cause loss of life.

SPECIAL AGENTS TO PROCURE THE EVIDENCE

Washington, Aug. 8—All special agents of the department of justice over the country have been ordered to assist district attorneys in uncovering evidence of profiteering in foodstuffs and other necessities.

Attorney General Palmer's instructions were that the special agents devote their entire attention to assisting in the action to reduce the cost of living. The result will be to put hundreds of trained investigators in the search for men who have inflated prices unfortunately.

ONE HUNDRED AND FIFTY PASSENGER TRAINS CUT OFF

Chicago—Curtailment of passenger service on many of the large railroads of the country is believed by rail officials to be forecast in the announcement last week of the discontinuance of more than one hundred and fifty trains by two eastern and one western roads, as the result of the nation wide strike of federated railroad shopmen. Railway officials predicted that a further curtailment of passenger service unless the shopmen respond to President Wilson's appeal and return to work within a short time, pending a settlement of wage demands.

Freight traffic on nearly all lines continued to be hampered by the walk out of the shopmen, and it was asserted by railroad officials that the notice to accept shipments "subject to delay" would be changed into an absolute embargo on many commodities unless conditions improved shortly.

Reports on the fairness of the strict council here, which called the strike against orders of the Grand Lodge officers, showed that the ranks of the strikers were being increased rapidly, while in Utah 95 per cent of the men returned to work in response to an appeal of the Grand Lodge officers.

WINNERS OF EDMONTON TRAP SHOOTING CONTST

Under excellent weather conditions W. H. Hamilton of Winnipeg won the State championship at the Western Canada Trapshooting Association tournament held at Edmonton July 26, with a break of 288x300. J. Black, also of Winnipeg, was second with 281x300. Good scores were made by all contestants.

B. McLaren of Calgary won the individual championship at singles by breaking 50 straight in the shoot off with B. Curtis of Saskatoon.

Other championships were won as follows:

Doubles championship won by E. H. Simpson, Calgary, with 26x30, after shooting off with G. M. Cowderoy; handicap championship won by G. M. Cowderoy with a score of 47x50 from 21 yards; five man team championship won by Calgary with 119x125; runner up Vancouver 117x125. G. M. Cowderoy made the long run of the tournament when he registered 62 consecutive hits.

FIRE IN STROME WIPES PART OF MAIN SECTION

Strome, Aug 9—Fire which started in the upper part of the general store of W. D. Phipps, on Friday morning, swept that portion of the town wiping out practically all the business houses in that section. This included besides Mr. Phillips business the drug store of George Shirrat, the harness shop owned by Henry Shenk, Latimer's hard ware store, the pool room operated by N. G. Harding the implement shed of Alex Seringeour, the Camrose Central Creamery branch, and a small action of the lumber yard. The loss has not yet been estimated but it is fully covered by insurance except perhaps the loss to the pool room. The section burned covers two thirds of one block of the main street.

The local brigade received great assistance in fighting the flame afrom both Killam and Daysland, the Killam brigade reaching town in about twenty minutes after receiving the first notification.

PERILOUS TASKS FACED

Salvage crews face perils in many ways when attempting to save vessels sunk during the war by German submarines. One of the most perilous incidents of this service was that of a navy commander, who cut away the nose of a live torpedo that had become jammed into the hull of a destroyer. So dangerous was the task that the naval authorities towed the destroyer three miles out to sea before they would permit the attempt.

This salvage work has advanced rapidly and become profitable. Submersible lifting devices have been devised and put into successful operation. Dangers from gases due to decaying grain cargoes, have been eliminated by scientific research. Diving appliances have been improved greatly.

The cutting of steel plates under the water now is only a detail and the construction of the "soup can" patch to cover holes in hulls has reached the point where it is merely a part of the day's work of the salvage men.

The Accident

Doctor: "How did you feel just after the accident?"

Patient: "Very much run down."

Wouldn't Mind That

An Italian who kept a fruit stand was very much annoyed by possible customers who made a practice of handling the fruit and pinching it, thereby leaving it often softened and spoiled. Exasperated beyond endurance, he finally put up a sign which read "If you must pincha da fruit—pincha da cocoanut."

Cynical Old Thing

"The time, the place and the girl are seldom found together."

"True. The girl is usually half an hour late."

NEW STAMPS

Stamp collectors of which London has its full share, are enthusiastic over the curious postage stamps which are beginning to reach them from the small or European states.

One example from Lithuania is of the first permanent issue of that country. It be sheen lithographed on heavy Elliston grey paper formerly used for the printing of bread tickets.

Lettland, Lithuania's neighbor, printed its first stamps on the backs of German ordnance maps, but these proved a little unwieldly and now its stamps are printed on the flimsiest of cigarette papers.

Czecho-Slovak stamps recently received here are simply the united arms of Bohemia, Moravia and Silesia, with the inscription "Cesko Slovenska Satni" printed on the Magyar stamps. They were issued when the Czecho Slovak troops invaded Hungary.

The disputed port of Fiume has been provided with a striking series of pictorial stamps, apparently in anticipation on an Italian mandate for they all bear the words "Fiume proclamma l' annessione all'Italia," and the date 20-10-1918. The four designs include the statue of Romulus and Remus fed by the she wolf the plazza of St. Mark and ancient Venetian galleon and the portrait of Dr Cromich.

HOOSIER

We have a department that has helped hundreds of housewives to solve the problem of long hours and hard labor in the kitchen. It has served women beyond their expectations. It is our Hoosier Department—the home of the kitchen cabinet that saves miles of steps and hours of needless toil.

Visit this department and you will see conveniences you have always wanted, grouped in one compact unit, You will see work reducing inventions and patented features not found elsewhere.

The Hoosier Kitchen Cabinet places over 400 articles within easy reach. Because of its scientific arrangement the things used most are nearest at hand. You sit at ease while preparing meals. You reach instead of walk.

It's our Service That Counts

Fitting glasses is comparatively easy; but to fit them correctly and accurately is another matter.

Our practical experience and right conception of optometry prevents the possibility of errors and incompetency in refracting.

ALBERT F. BROWN

Special Price To Returned Men

To Returned Men, we are quoting a SPECIAL PRICE on Lumber and we will have Plans drafted free of charge for any buildings which they wish to build.

Plan Books

It does not cost any more to build a well laid off house than it does to build a haphazard one, in fact sometimes it does not cost nearly so much. Our Plan Books show everything from a three roomed bungalow to a ten roomed house, each one laid off to give the largest possible space and convenience at the smallest cost. It will pay you to look these over before you build and we shall be glad to show them to you at any time. We also have new Plan Books for Barns of all sizes and Farm Buildings of every kind.

We can quote you on building materials of all kinds in

DIMENSION x 4-8
COAST CEDAR
B. C. MOUNTAIN SPRUCE
JUBILEE BUILDING PAPERS AND FELTS
XXX EDGE GRAIN COAST CEDAR SHINGLES
GREEN CUT TAMARAC & SPLIT CEDAR POSTS
FULL SIZED DIMENSION & BOARDS for CORRALS

Get our Price on what you need. You will find it will pay you to do so.

HUMBERSTONE AND PEMBINA COAL always on hand, also DRY TAMARAC & JACKPINE FIREWOOD
